

CHATS on Applied Superconductivity 2021

Friday 24 September 2021

Tools D5 (12:00-13:40)

time	[id] title	presenter
12:00	[27] Improving the SuperMagnet model; recent developments and future activities	
12:25	[22] Development and test of a dynamic Modelica model of the He refrigerator for superconducting magnet systems	
12:50	[25] Performance assessment of multi-tube He II/He II heat exchanger using a single tube sample	
13:15	[39] Analysis of Current Distribution in Rutherford Cables for Accelerator Magnets as an Engineering Tool
