

# CHATS on Applied Superconductivity 2021

## Friday, September 24, 2021

### Tools D5 (12:00 PM - 1:40 PM)

time	[id] title	presenter
12:00	<del>P21</del> Improving the SuperMagnet model; recent developments and future activities	
12:25	<del>P21</del> Development and test of a dynamic Modelica model of the He refrigerator for superconducting magnet systems	
12:50	<del>P25</del> Performance assessment of multi-tube He II/He II heat exchanger using a single tube sample	
1:15	<del>P09</del> Analysis of Current Distribution in Rutherford Cables for Accelerator Magnets as an Engineering Tool
